JOURNAL OF BIOCHEMICAL TOXICOLOGY

Volume 5, 1990

VCH

FEATURE ARTICLES

Multiple Pathways for the Oxidative Metabolism of Estrogens in Syrian Hamster and Rabbit Kidney — *Giselda H. Degen, G. Blaich, and M. Metzler* — 91

The Interference of Aroclor 1254 with Progesterone Metabolism in Guinea Pig Adrenal and Testes Microsomes — *Daphne Goldman and Aminandav Yawetz* — 99

Metabolism of Methacrylonitrile to Cyanide: In Vitro Studies — *Mohammed Y. H. Farooqui, Roland G. Diaz, and Rogelio Cavazos, Jr.* — 109

Induction of Peroxisomal Enzymes in Cultured Porcine Endothelial Cells by the Hypolipidemic Drug, Ciprofibrate — *Howard P. Glauert, Bernhard Hennig, and Hannah S. Chow* — 115

Mirex Induces Ornithine Decarboxylase in Female Rat Liver — *Ashoke Mitra, Ira Richards, Kirk Kitchin, Rory Conolly, and Arun P. Kulkarni* — 119

The Effects of Ions on the Conjugation of Xenobiotics by the Aralkyl-CoA and Arylcetyl-CoA *N*-Acyltransferases from Bovine Liver Mitochondria — *Michael Kelley and Donald A. Vessey* — 125

MEETING ANNOUNCEMENTS — 137

FEATURE ARTICLES

Activation of Benzo(*a*)pyrene-7,8-dihydrodiol in Rat Uterus: An *In Vitro* Study — *Janusz Z. Byczkowski and Arun P. Kulkarni* — 139

Aflatoxin B_1 Metabolism by 3-Methylcholanthrene-Induced Hamster Hepatic Cytochrome P-450s — *T. S. Lai and J. Y. L. Chiang* — 147

The Effect of TCDD on Acyl CoA: Retinol Acyltransferase Activity and Vitamin A Accumulation in the Kidney of Male Sprague-Dawley Rats — *Maria A. Jurek, Robert H. Powers, Linda G. Gilbert, and Steven D. Aust* — 155

Formation of Strand Breaks and Interstrand Cross-Links in DNA by Methylglyoxal — *Arshad Rahman, Shahabuddin, and S. M. Hadi* — 161

Inhibition of Carbon Tetrachloride-Induced Lipid Peroxidation by Novel Antioxidants in Rat Hepatic Microsomes: Dissociation from Hepatoprotective Effects *In Vivo* — *G. H. I. Wolfgang, R. A. Jolly, W. J. Donarski, R. Ochoa, and T. W. Petry* — 167

Strain and Sex Differences in the Response of Mice to Drugs that Induce Protoporphyria: Role of Porphyrin Biosynthesis and Removal — *Anne Holley, L. J. King, A. H. Gibbs, and F. De Matteis* — 175

The Effects of Soman *In Vitro* on Catechol-*O*-Methyltransferase and Monoamine Oxidase Activities in Rabbit Tissues — *Chia-Hsuh Hsu, Chao-Yu Hu, and Casey P. Robinson* — 183

The Effects of Haloalkene Cysteine Conjugates on Cytosolic Free Calcium Levels in Suspensions of Rat Renal Proximal Tubules — *Carlotta E. Groves, Edward A. Lock, and Rick G. Schnellmann* — 187

Role of Inducer Binding in Cytochrome P-450 IA_2-Mediated Uroporphyrinogen Oxidation	*Judith M. Jacobs, Peter R. Sinclair, Richard W. Lambrecht, Jacqueline F. Sinclair, and Nicholas J. Jacobs*	193
MEETING ANNOUNCEMENTS		201
FEATURE ARTICLES		
Neonatal Modulation of Adult Rat Hepatic Microsomal Benzo[a]pyrene Hydroxylase Activities by Aroclor 1254 or Phenobarbital	*J. M. Haake-McMillan and S. H. Safe*	203
Differential Enzyme Induction of Mouse Liver and Lung Following a Single Low or High Dose of 2,3,7,8-Tetrachlorodibenzo-*p*-dioxin (TCDD)	*L. Beebe, S. S. Park, and L. M. Anderson*	211
Hemoglobin Degradation Lipid Peroxidation, and Inhibition of Na^+/K^+-ATPase in Rat Erythrocytes Exposed to Acrylonitrile	*Mohammed Y. H. Farooqui, Mohammad M. Mumtaz, Burhan I. Ghanayem, and Ahmed E. Ahmed*	221
Oxidatively Stressed Lymphocytes Remain in Go/Gla on Mitogenic Stimulation	*David D. Duncan and David A. Lawrence*	229
Diethylstilbestrol Potentiates and Testosterone Antagonizes the Action of 3-Methylcholanthrene on Benzo(a)pyrene Metabolism in Hep G2 Cells	*Susan McAfee Moore and Coral A. Lamartiniere*	237
In Vivo Toxicity and Pulmonary Effects of Promazine and Chlorpromazine in Rats	*Urmila P. Kodavanti, Virginia G. Lockard, and Harihara M. Mehendale*	245
Oxidant Injury Increases Cell Surface Receptor Binding of Angiotensin II to Pulmonary Artery Endothelial Cells	*J. M. Patel, K. Madhavi Sekharam, and Edward R. Block*	253
Role of Hypergastrinemia in the Antiatrophy Effect of 2,3,7,8-Tetrachlorodibenzo-*p*-dioxin on Oxyntic Gland Mucosa of the Rat Stomach	*H. Michael Theobald, Thomas A. Mably, Glynnis B. Ingall, and Richard E. Peterson*	259
RAPID COMMUNICATION		
Spectroscopic Quantitation of Cytochrome P-450 in Human Lung Microsomes	*Clyde W. Wheeler and Thomas M. Guenthner*	269
